

COMING THIS FALL....

SOUTHPOINT

• SELF-STORAGE & WINE CELLARS •

Concierge Service

From the winery to your dining room table, Southpoint's Concierge Service offers a personalized, worry-free wine storage management experience backed by cutting-edge, internet based technology.

Powered by Southpoint's dedicated personnel as well as its proprietary software and inventory tracking systems, the Concierge Service will allow Southpoint's customers to receive, store, track and ship their personal wine inventory from the comfort of their own home.

SHIP WINE DIRECTLY TO SOUTHPOINT

Southpoint will verify the incoming shipment by bar-coding, scanning and inventorying each bottle received, then stock your wine in your personal wine cellar.

HAVE SOUTHPOINT PICK UP YOUR ORDERS AT LOCAL WINERIES

Southpoint will pickup your wine in our temperature controlled delivery truck, inventory your wine, then bring your wine back to Southpoint where it will be placed in your personal wine cellar.

SHIP WINE THROUGH SOUTHPOINT'S FULFILLMENT CENTER

Whether you're shipping one bottle or multiple cases, Southpoint will ship your wine when and where you want it.

"REAL TIME" INVENTORY TRACKING

Through a secure internet login screen, each customer will be able to see real-time inventory levels by the bottle.

IDEAL CELLAR ENVIRONMENT

Southpoint has spared no effort to create the ideal wine storage environment for your wine.

- Cooled to a constant 56 degrees
- Humidity control system maintains levels between 60% and 70%
- 24-hour equipment monitoring by refrigeration specialists: (ensures mechanical problems averted prior to failure)
- Vibration free storage
- Fully enclosed individual wine cellars to protect against UV light
- All wine cellars are designed to provide proper ventilation
- Backup generator for continued cooling and humidity control during power outages

UNPARALLELED STATE-OF-THE-ART SECURITY

Southpoint sets a new standard for the industry, ensuring the ultimate protection for your wine investment.

- Individual door alarms
- Personalized security access codes
- 24-hour alarm monitoring
- Digital video surveillance
